The fund is not a complete or balanced investment program.

UBS Retirement Money Fund

Fund summary

Investment objective

Current income consistent with liquidity and conservation of capital.

Fees and expenses of the fund

These tables describe the fees and expenses that you may pay if you buy and hold shares of the fund.

Shareholder fees *(fees paid directly from your investment)*

Maximum front-end sales charge (load) imposed on purchases (as a % of offering price)	None
Maximum deferred sales charge (load) (as a % of offering price)	None

Annual fund operating expenses *(expenses that you pay each year as a percentage of the value of your investment)*

Management fees*	0.39%
Service (12b-1) fees*	0.15%
Other expenses	0.14%
Total annual fund operating expenses	0.68%

* Restated to reflect current expenses.

Example

This example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the fund for the time periods indicated and then sell all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the fund's operating expenses remain the same.

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 yr.	3 yrs.	5 yrs.	10 yrs.
UBS Retirement Money Fund	\$69	\$218	\$379	\$847

Principal strategies

Principal investments

The fund is a money market fund and seeks to maintain a stable price of \$1.00 per share. To do this, the fund invests in a diversified portfolio of high quality money market instruments of governmental and private issuers.

Money market instruments generally are short-term debt obligations and similar securities. They may also include longer-term bonds that have variable interest rates or other special features that give them the financial characteristics of short-term debt. The fund invests in foreign money market instruments only if they are denominated in US dollars.

Management process

UBS Global Asset Management (Americas) Inc. ("UBS Global AM") acts as the fund's investment advisor. As investment advisor, UBS Global AM makes the fund's investment decisions. UBS Global AM selects money market instruments for the fund based on its assessment of relative values and changes in market and economic conditions. UBS Global AM considers safety of principal and liquidity in selecting securities for the fund and thus may not buy securities that pay the highest yield.

Principal risks

All investments carry a certain amount of risk, and the fund cannot guarantee that it will achieve its investment objective. While the fund seeks to maintain the value of your investment at \$1.00 per share, you may lose money by investing in the fund. An investment in the fund is not a bank deposit and is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Money market instruments generally have a low risk of loss, but they are not risk-free. The principal risks presented by an investment in the fund are:

Credit risk: Issuers of money market instruments may fail to make payments when due, or they may become less willing or less able to do so.

US Government securities risk: There are different types of US government securities with different levels of credit risk, including the risk of default, depending on the nature of the particular government support for that security. For example, a US government-sponsored entity, although chartered or sponsored by an Act of Congress, may issue securities that are neither insured nor guaranteed by the US Treasury and are therefore riskier than those that are.

Interest rate risk: The value of the fund's investments generally will fall when short-term interest rates rise, and its yield will tend to lag behind prevailing rates.

Total Return

Total return January 1 to June 30, 2011: 0.00% (Actual total return was 0.0049%)

Best quarter during years shown—1st quarter, 2001: 1.30%

Worst quarter during years shown—3rd quarter, 2009 & 1st, 2nd & 3rd quarters, 2010: 0.00% (Actual total return was 0.0024%)

Updated performance information is available by contacting your Financial Advisor or by calling 1-888-793 8637 (Option #1).

Foreign investing risk: The value of the fund's investments in foreign securities may fall due to adverse political, social and economic developments abroad. However, because the fund's foreign investments must be denominated in US dollars, it generally is not subject to the risk of changes in currency valuations.

Liquidity risk: Although the fund invests in a diversified portfolio of high quality instruments, the fund's investments may become less liquid as a result of market developments or adverse investor perception.

Management risk: The risk that the investment strategies, techniques and risk analyses employed by the investment advisor may not produce the desired results.

Performance

Risk/return bar chart and table

The following bar chart and table provide information about the fund's performance and thus give some indication of the risks of an investment in the fund.

The bar chart shows how the fund's performance has varied from year to year.

The table that follows the bar chart shows the average annual returns over various time periods for the fund's shares.

The fund's past performance does not necessarily indicate how the fund will perform in the future.

Average annual total returns

(for the periods ended December 31, 2010)

One year	0.01%
Five years	2.23%
Ten years	1.95%

Investment advisor

UBS Global Asset Management (Americas) Inc. ("UBS Global AM") serves as the investment advisor to the fund.

Purchase & sale of fund shares

Fund shares are offered to retirement plans, including individual retirement accounts, through brokerage accounts established as retirement plan sweep accounts at UBS Financial Services Inc. or one of its correspondent firms. You must be a client of UBS Financial Services Inc. or a client of certain affiliated firms to purchase fund shares. You may purchase or sell fund shares by contacting your Financial Advisor. The fund has no minimum for initial investments or to add to an account, but reserves the right to establish minimum investment requirements at any time. Shares of the fund may be purchased or redeemed through your Financial Advisor on any business day on which the Boston offices of the fund's custodian and the New York City offices of UBS Financial Services Inc. and its bank are all open for business.

Tax information

Retirement plan participants ordinarily do not pay taxes on dividends they receive on fund shares until they withdraw the proceeds from the plan. Generally, withdrawals from a retirement plan will be taxable as ordinary income.

Payments to broker-dealers and other financial intermediaries

If you purchase the fund through a broker-dealer or other financial intermediary (such as a bank), the fund and its related companies may pay the intermediary for the sale of fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your Financial Advisor to recommend the fund over another investment. Ask your Financial Advisor or visit your financial intermediary's Web site for more information.

More information about the fund

Additional information about the investment objective

The fund's investment objective may not be changed without shareholder approval.

Additional information about investment strategies

The fund seeks to achieve its investment objective by investing in a diversified portfolio of high quality money market instruments of governmental and private issuers, which generally are short-term debt obligations and similar securities. They may also include longer-term bonds that have variable interest rates or other special features that give them the financial characteristics of short-term debt. The fund invests in foreign money market instruments only if they are denominated in US dollars.

Like all money market funds, the fund is subject to maturity, quality, diversification and liquidity requirements designed to help it maintain a stable price of \$1.00 per share. The fund's investment strategies are designed to comply with these requirements. The fund may invest in high quality, short-term, US dollar denominated money market instruments paying a fixed, variable or floating interest rate.

UBS Global AM may use a number of professional money management techniques to respond to changing economic and money market conditions and to shifts in fiscal and monetary policy. These techniques include varying the fund's composition and weighted average maturity based upon UBS Global AM's assessment of the relative values of various money market instruments and future interest rate patterns. UBS Global AM also may buy or sell money market instruments to take advantage of yield differences.

Additional information about principal risks

The main risks of investing in the fund are described below. Other risks of investing in the fund, along with further detail about some of the risks described below, are discussed in the fund's Statement of Additional Information ("SAI"). Information on how you can obtain the SAI is on the back cover of this prospectus.

Credit risk. Credit risk is the risk that the issuer of a money market instrument will not make principal or interest payments when they are due. Even if an issuer does not default on a payment, a money market instrument's value may decline if the market believes that the issuer has become less able, or less willing, to make payments on time. Even the highest quality money market instruments are subject to some credit risk. The credit quality of an issuer can change rapidly due to market developments and may affect the fund's ability to maintain a \$1.00 share price.

US Government securities risk. Credit risk is the risk that the issuer will not make principal or interest payments when they are due. There are different types of US government securities with different relative levels of credit risk depending on the nature of the particular government support for that security. US government securities may be supported by (1) the full faith and credit of the US; (2) the ability of the issuer to borrow from the US Treasury; (3) the credit of the issuing agency, instrumentality or government-sponsored entity; (4) pools of assets (e.g., mortgage-backed securities); or (5) the US in some other way. In some cases, there is even the risk of default. For example, for asset backed securities there is the risk those assets will decrease in value below the face value of the security. Similarly, for certain agency issued securities there is no guarantee the US government will support the agency if it is unable to meet its obligations. Further, the US government and its agencies and instrumentalities do not guarantee the market value of their securities; consequently, the value of such securities will fluctuate.

Interest rate risk. The value of money market instruments generally can be expected to fall when short-term interest rates rise and to rise when short-term interest rates fall. Interest rate risk is the risk that interest rates will rise, so that the value of the fund's investments will fall. Also, the fund's yield will tend to lag behind changes in prevailing short-term interest rates. This means that the fund's income will tend to rise more slowly than increases in short-term interest rates. Similarly, when short-term interest rates are falling, the fund's income generally will tend to fall more slowly.

Foreign investing risk. Foreign investing may involve risks relating to political, social and economic developments abroad to a greater extent than investing in the securities of US issuers. In addition, there are differences between US and foreign regulatory requirements and market practices.

Liquidity risk. The fund's investments may become less liquid due to market developments or adverse investor perception. When there is no willing buyer and investments cannot be readily sold at the desired time or price, the fund may have to accept a lower price or may not be able to sell an instrument at all. The inability to sell an instrument could adversely affect the fund's ability to maintain a \$1.00 share price or prevent the fund from being able to take advantage of other investment opportunities. This risk may increase during an unusually high volume of redemption requests by even a few large investors or unusual market conditions.

Management risk. There is the risk that the investment strategies, techniques and risk analyses employed by the advisor may not produce the desired results. The advisor may be incorrect in its assessment of a particular security or assessment of market, interest rate or other trends, which can result in losses to the fund.

An investment in the fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Additional risks

Regulatory risk. The US Securities and Exchange Commission ("SEC") continues to review the regulation of money market funds and may propose further changes to the rules that govern the fund's operations. Legislative developments may also affect the fund. These changes and developments may affect the investment strategies, performance, yield and operating expenses of the fund.

Securities lending risk. Securities lending involves the lending of portfolio securities owned by the fund to qualified broker-dealers and financial institutions. When lending portfolio securities, the fund initially will require the borrower to provide the fund with collateral, most commonly cash, which the fund will invest. Although the fund invests this collateral in a conservative manner, it is possible that it could lose money from such an investment or fail to earn sufficient income from its investment to cover the fee or rebate that it has agreed to pay the borrower. Loans of securities also involve a risk that the borrower may fail to return the securities or deliver the proper amount of collateral, which may result in a loss to the fund. In addition, in the event of bankruptcy of the borrower, the fund could experience losses or delays in recovering the loaned securities. In some cases, these risks may be mitigated by an indemnification provided by the fund's lending agent.

Structured security risk. The fund may purchase securities representing interests in underlying assets, but structured to provide certain advantages not inherent in those assets (e.g., enhanced liquidity and yields linked to short-term interest rates). If those securities behaved in a way that UBS Global AM did not anticipate, or if the security structures encountered unexpected difficulties, the fund could suffer a loss. Structured securities represent a significant portion of the short-term securities market.

Other defensive positioning. During adverse market conditions or when UBS Global AM believes there is an insufficient supply of appropriate money market securities in which to invest, the fund may temporarily hold uninvested cash in lieu of such investments. During such periods when such temporary or defensive positions are held, the fund may not be able to fully pursue its investment objective. Such positions may also subject the fund to additional risks, such as increased exposure to cash held at a custodian bank.

Managing your fund account

Buying shares

Introduction. Fund shares are offered to retirement plans, including individual retirement accounts, through brokerage accounts established as retirement plan sweep accounts at UBS Financial Services Inc. or one of its correspondent firms. The types of retirement plans that are eligible to buy fund shares are described below. You can open a retirement plan sweep account by contacting your Financial Advisor.

Automatic deposit account sweep program.

UBS Financial Services Inc. administers a bank deposit sweep program under which free cash balances in client brokerage accounts are swept into interest-bearing deposit accounts ("Deposit Account Sweep Program").

Investors who are eligible to participate in the Deposit Account Sweep Program are referred to as "eligible participants" below to distinguish them from other investors in the fund.

UBS Financial Services Inc. retirement plan sweep accounts of eligible participants automatically default to the Deposit Account Sweep Program as their primary sweep vehicle. This means that free cash balances (that is, immediately available funds) of eligible participants will be automatically deposited in bank deposit accounts, not the fund. This will occur without dollar limit, if no cap is selected by the investor. If a cap is selected, available balances in excess of such limit will be automatically invested in the fund.

UBS Financial Services Inc. will require a threshold (e.g., \$100,000 for individual ownership and \$200,000 for joint ownership accounts, in each case, on a per-account basis) before redirection of cash balances to the fund. (As of the date of this prospectus, these amounts are expected to increase to \$250,000 and \$500,000, respectively, on or about October 28, 2011; please contact your Financial Advisor regarding the specific timing of any changes to the UBS Financial Services Inc. Deposit Account Sweep Program.) After a cap is reached, uninvested cash will be invested as if the investor were a "non-eligible participant."

Certain limitations apply. For more information, please contact your Financial Advisor at UBS Financial Services Inc. or correspondent firm.

If you would like to place a limit on the amount of available cash that defaults to the Deposit Account Sweep Program, contact your Financial Advisor or correspondent firm.

Background information. Your order to purchase fund shares will be effective on the business day on which federal funds become available to the fund. Federal funds are funds deposited by a commercial bank in an account at a Federal Reserve Bank that can be transferred to a similar account of another bank in one day and thus can be made immediately available to the fund. A business day is any day that the Boston offices of the fund's custodian and the New York City offices of UBS Financial Services Inc. and its bank are all open for business. One or more of these institutions will be closed on the observance of the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day and Christmas Day.

The fund has adopted a plan under rule 12b-1 under which the fund pays fees for services provided to its shareholders at the annual rate of 0.15% of its average net assets.

The fund, UBS Financial Services Inc. and UBS Global AM have the right to reject a purchase order and to suspend the offering of the fund's shares for a period of time or permanently.

Minimum investments

The fund has no minimum for initial investments or to add to an account, but reserves the right to establish minimum investment requirements at any time.

Buying shares automatically

Non-eligible participants. Once your fund account is opened, immediately available funds in your retirement plan sweep account are automatically invested in the fund on a daily basis for settlement the next business day, when federal funds normally are available. For cash

balances arising from the sale of securities held in a retirement plan sweep account, federal funds availability can sometimes take longer.

Eligible participants. UBS Financial Services Inc. retirement plan sweep accounts will automatically default to the Deposit Account Sweep Program as noted above. If a dollar limit cap is selected, available balances in excess of such cap will be automatically invested in fund shares.

Buying shares by check

You may buy fund shares by depositing a check from a US bank into your retirement plan sweep account. You should make your check payable to UBS Retirement Money Fund and include your retirement plan sweep account number on the check. Only non-eligible participants (and eligible participants who are purchasing fund shares in excess of a cap on investments in the Deposit Account Sweep Program) may buy shares by check.

Federal funds are deemed available to the fund two business days after the deposit of a personal check and one business day after deposit of a cashier's or certified check. UBS Financial Services Inc. may benefit from the temporary use of the proceeds of personal checks if they are converted to federal funds in less than two business days.

Buying shares by wire

You may buy fund shares by instructing your bank to transfer federal funds by wire to:

UBS AG
ABA 026007993
UBS Financial Services Inc.—Retirement Money Fund
A/C 101WA258640000
[Account Name]/[Brokerage Account Number]

The wire must include your name and retirement plan brokerage account number. Only non-eligible participants (and eligible participants who are purchasing fund shares in excess of a cap on investments in the Deposit Account Sweep Program) may buy shares by wire. Investors wishing to transfer federal funds directly into their retirement plan sweep accounts should contact their UBS Financial Services Inc. Financial Advisors or correspondent firms for appropriate wire instructions.

If UBS Financial Services Inc. receives funds in the account for a purchase of fund shares by 12:00 noon, Eastern time, on a business day, UBS Financial Services Inc. will execute the purchase on that day. Otherwise, UBS Financial Services Inc. will execute the order on the next business day. UBS Financial Services Inc. and/or your bank may impose a service charge for wire purchases.

Retirement plans eligible to buy fund shares

Retirement plans available through UBS Financial Services Inc. that are eligible to buy fund shares (subject to the Deposit Account Sweep Program noted above) include:

- individual retirement accounts (e.g., traditional, rollover and "SIMPLE" IRAs);
- simplified employee pension plans;
- cash or deferred arrangements (i.e., 401(k) plans, including SIMPLE 401(k) plans);
- profit sharing plans;
- money purchase plans;
- defined benefit plans;
- target benefit plans; and
- self-employed plans (i.e., "Keoghs").

Other retirement plans also may hold assets in custody at UBS Financial Services Inc. or its correspondent firms and may be eligible to buy fund shares. Contact your Financial Advisor for more information regarding these retirement plans.

Although the amount that you may contribute to a retirement plan in any one year is subject to certain limitations, you may invest and reinvest assets already held in a retirement plan without regard to these limitations.

If UBS Financial Services Inc., UBS Global AM, UBS Trust Company N.A. or any of their affiliates serve as investment manager for, provide investment advice to, or otherwise are fiduciaries within the meaning of the Employee Retirement Income Security Act or the Internal

Revenue Code, to the retirement plan, the plan may not buy fund shares. This prohibition does not include retirement plans for which UBS Financial Services Inc., UBS Global AM, UBS Trust Company N.A. or an affiliate may be considered a fiduciary solely because it sponsors a master or prototype plan or because it provides nondiscretionary trust services to a retirement plan.

Additional compensation to affiliated dealer

UBS Global AM has entered into an agreement with its affiliate, UBS Financial Services Inc., under which UBS Global AM (or its affiliate UBS Global Asset Management (US) Inc. ("UBS Global AM (US)")) pays UBS Financial Services Inc. additional compensation in connection with the sale of fund shares and the provision of administrative and shareholder services.

The aggregate amount of these payments may be substantial and may represent a significant portion of the advisory and administrative fees charged by UBS Global AM. These payments do not increase the expenses of the fund, but are made by UBS Global AM (or its affiliate UBS Global AM (US)) out of its own legitimate profits or other resources. The payments may include amounts that are sometimes referred to as "revenue sharing" payments.

Selling shares

You may sell your shares by contacting your Financial Advisor. Your fund shares will also be sold automatically to settle any outstanding securities purchases or other debits to your retirement plan sweep account, unless you instruct your Financial Advisor otherwise. Some investors may also be able to use the checkwriting service to sell shares.

If you are a participant in the Deposit Account Sweep Program and also own shares of the fund, shares of the fund are always sold first to settle any outstanding securities purchases or other debits to your retirement plan sweep account. If there are insufficient amounts in the fund, then cash withdrawals will be made from your bank deposit account to satisfy the debits.

If the proceeds from selling your fund shares remain in the retirement plan sweep account, the adverse tax consequences described below for certain retirement plan distributions will not occur.

Also, if conditions exist that make cash payments undesirable, the fund reserves the right to honor any request for redemption by making payments in whole or in part in securities, to the extent permitted under applicable law.

More information regarding "Eligible Participants."

Eligible participants are individuals, sole proprietors and governmental entities. Custodial and trust accounts are also Eligible Participants if each beneficiary is an Eligible Participant. "Eligible Participants" do not include participants that are (a) organized or operated to make a profit such as corporations, partnerships, associations, business trusts or other organizations, (b) nonprofit organizations, including organizations described in sections 501(c)(3) through (13) and (19) of the Internal Revenue Code of 1986, as amended, (c) estates, (d) enrolled in UBS Financial Services Inc. Investment Consulting Services programs (other than InsightOneSM and Employee Self Directed Accounts) or Private Wealth SolutionsSM, (e) not resident in the United States or (f) retirement plans qualified under Section 401(a) or Section 403(b)(7) of the Internal Revenue Code of 1986, as amended, or under any other employee retirement or welfare plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Additional information about your account

It costs the fund money to maintain shareholder accounts. Therefore, the fund reserves the right to repurchase all shares in any account that has a net asset value of less than \$250. If the fund elects to do this with your account, it will notify you that you can increase the amount invested to \$250 or more within 60 days. This notice may appear on your account statement. Investors participating in the Deposit Account Sweep Program who wish to increase their fund account balance to \$250 or more will need to select a cap on the level of free cash balances swept into the deposit accounts and add sufficient cash to their brokerage accounts so that both the deposit account cap and this minimum are met. If the deposit account cap and fund minimum are not met, the proceeds from the sale of fund shares will be deposited in the investor's brokerage account and swept into the deposit account.

If you sell all your shares, you will receive cash credits to your retirement plan sweep account for dividends earned on those shares to the date of sale.

If you want to sell shares that you purchased recently, the fund may delay payment to assure that it has received good payment. If you bought shares by check, this can take up to 15 days.

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. If you do not provide the information requested, the fund may not be able to maintain your account. If the fund is unable to verify your identity or that of another person(s) authorized to act on your behalf, the fund and UBS Global AM reserve the right to close your account and/or take such other action they deem reasonable or required by law. Fund shares will be redeemed and valued in accordance with the net asset value next calculated after the determination has been made to close the account.

You will receive confirmation of your purchases and sales of fund shares on periodic account statements. These periodic statements may be sent monthly except that, if your only fund activity in a quarter was reinvestment of dividends, the activity may be reported on a quarterly rather than a monthly statement.

The fund may suspend redemption privileges or postpone the date of payment beyond the same or next business day (1) for any period (a) during which the New York Stock Exchange (the "NYSE") is closed other than customary weekend and holiday closings or (b) during which trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which (a) disposal by the fund of securities owned by it is not reasonably practicable or (b) it is not reasonably practicable for the fund fairly to determine the value of its net assets; (3) for such other periods as the SEC may by order permit for the protection of security holders of the fund; or (4) to the extent otherwise permitted by applicable laws and regulations.

Retirement plan withdrawals

A participant's withdrawals from a retirement plan are generally taxable as ordinary income for federal income

tax purposes unless they are rolled over tax free to another eligible retirement plan. Withdrawals prior to the time the participant reaches age 59½, becomes permanently disabled or, for certain employer-sponsored plans, is separated from service of the employer who sponsored the plan after reaching age 55, may be subject to an additional 10% penalty tax. Certain distributions from qualified plans which are eligible for rollover treatment will be subject to mandatory 20% withholding if not directly rolled over to an eligible retirement plan. You should consult your tax advisor concerning the timing and tax consequences of withdrawals from your retirement plan and whether an exemption from the 10% penalty tax might apply. The plan administrator of a qualified plan is required to provide plan participants with a written explanation of the participant's right to make a direct rollover of eligible distributions and the withholding consequences of not doing so. Sales of your fund shares through the fund's checkwriting service or systematic withdrawal plan, described below, are treated for federal income tax purposes as taxable withdrawals from your retirement plan and are reported as such to the Internal Revenue Service. As a result, any of these actions could have adverse tax consequences.

You may use the fund's checkwriting services or systematic withdrawal plan only if:

- you are eligible for distributions from your retirement plan;
- your retirement plan permits participants to direct the investment of their retirement plan balances; and
- you are at least 59½ years old or, for certain employer-sponsored plans, you have reached at least age 55 and are separated from service of the employer who sponsored the plan.

For retirement plans that do not permit participants to direct the investment of their plan balances, only the plan fiduciary with investment responsibility may use the checkwriting service or participate in the fund's systematic withdrawal plan.

You may obtain more information about these programs and obtain the forms needed to participate from your Financial Advisor.

UBS Financial Services Inc. may modify or terminate the checkwriting service or systematic withdrawal plan (discussed below) at any time or impose service fees for these programs.

Checkwriting service. If you are approved for distributions you may elect to establish checkwriting privileges on your account. Checks may be written for any dollar amount.

Checks will be cleared against the “total withdrawal limit” of a shareholder’s UBS Financial Services Inc. brokerage account. The withdrawal limit includes uninvested cash in the brokerage account and balances in money funds or other sweep options.

The date on which the fund’s transfer agent or UBS Financial Services Inc. processes the check, not the date you write on it, determines the year in which the distribution is reported to the Internal Revenue Service. If you must take annual required distributions by December 31 in a given year, you need to allow sufficient time for processing your check.

As of the date of this prospectus, shareholders receive copies of their canceled checks monthly; however, it is anticipated that this practice will change in the future so that investors would no longer automatically be sent copies of canceled checks each month. Instead, shareholders would be able to request photocopies of canceled checks. If you have insufficient funds in your account, the check will be returned to the payee. You should not attempt to sell all the shares in your fund account by writing a check because the amount of fund shares may change each day. You also should not use the checks to transfer money from a retirement sweep account to another account, correct excess contributions to a retirement plan or withdraw amounts classified as voluntary contributions to a retirement plan. Your checks may not be used to purchase securities in transactions with UBS Financial Services Inc., written for cash or used to close your account. All sales of fund shares by check will be reported to the Internal Revenue Service as taxable distributions. Charges may be imposed for specially imprinted checks, additional copies of canceled checks, stop payment orders and checks returned for insufficient funds. Charges that you do not otherwise pay may be satisfied through the automatic sale of an appropriate number of your fund shares or a

charge against your brokerage account. There will be no withholding election for checks written against your account. To establish checking or request a reorder, contact your Financial Advisor.

Systematic withdrawal plan. Systematic Withdrawal Plans may be established to deduct funds from your withdrawal limit on your UBS Financial Services Inc. brokerage account for a specified dollar amount, weekly, semi-monthly, monthly, quarterly or semi-annually or annually. The minimum withdrawal amounts under the systematic withdrawal plan are \$1.00. The systematic withdrawal check will be mailed directly to your address of record or deposited into a non-retirement plan account held at UBS Financial Services Inc. Participation in the plan may result in the automatic sale of a portion of your shares in the fund.

Market timing

Frequent purchases and redemptions of fund shares could increase the fund’s transaction costs, such as market spreads and custodial fees, and may interfere with the efficient management of the fund’s portfolio, which could impact the fund’s performance. However, money market funds are generally used by investors for short-term investments, often in place of bank checking or savings accounts or for cash management purposes. Investors value the ability to add and withdraw their funds quickly, without restriction. UBS Global AM anticipates that shareholders will purchase and sell fund shares frequently because the fund is designed to offer investors a liquid cash option. UBS Global AM also believes that money market funds, such as the fund, are not targets of abusive trading practices because money market funds seek to maintain a \$1.00 per share price and typically do not fluctuate in value based on market prices. For these reasons, the board has not adopted policies and procedures, or imposed redemption fees or other restrictions such as minimum holding periods, to discourage excessive or short-term trading of fund shares.

Other UBS funds that are managed by UBS Global AM that are not money market funds have approved policies and procedures designed to discourage and prevent abusive trading practices. For more information about market timing policies and procedures for these funds, please see the funds’ prospectuses.

Pricing and valuation

The price of fund shares is based on net asset value. The net asset value per share is the total value of the fund divided by the total number of shares outstanding. In determining net asset value, the fund normally values its securities at their amortized cost. This method uses a constant amortization to maturity of the difference between the cost of the instrument to the fund and the amount due at maturity. The fund's net asset value per share is expected to be \$1.00, although this value is not guaranteed.

The fund typically calculates net asset value per share once each business day as of 12:00 noon, Eastern time. Your price for buying or selling shares will be the net asset value that is next calculated after the fund receives your order in good form.

Your Financial Advisor is responsible for making sure that your order is promptly sent to the fund when shares are purchased other than through the automatic program described above.

The fund's board has delegated to a UBS Global AM valuation committee the responsibility for making fair value determinations with respect to the fund's portfolio securities. The types of securities and other instruments for which such fair value pricing may be necessary include, but are not limited to: securities of an issuer that has entered into a restructuring; fixed-income securities that have gone into default and for which there is no current market value quotation; and securities or instruments that are restricted as to transfer or resale. The need to fair value the fund's portfolio securities may also result from low trading volume in foreign markets or thinly traded securities or instruments. Various factors may be reviewed in order to make a good faith determination of a security's or instrument's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the securities or instruments; and the evaluation of forces which influence the market in which the securities or instruments are purchased and sold.

The fund's portfolio holdings may also consist of shares of other investment companies in which the fund invests. The value of each such open-end investment company will generally be its net asset value at the time

the fund's shares are priced. Each investment company generally values securities and other instruments in a manner as described in that investment company's prospectus or similar document.

Management

Investment advisor

UBS Global Asset Management (Americas) Inc. ("UBS Global AM") is the fund's investment advisor and administrator. UBS Global AM is a Delaware corporation with offices at One North Wacker Drive, Chicago, IL 60606 and at 1285 Avenue of the Americas, New York, New York 10019-6028. UBS Global AM is an investment advisor registered with the SEC. UBS Global AM is an indirect, wholly owned subsidiary of UBS AG ("UBS"). As of June 30, 2011 UBS Global AM had approximately \$151.5 billion in assets under management. UBS Global AM is a member of the UBS Global Asset Management Division, which had approximately \$637.9 billion in assets under management worldwide as of June 30, 2011. UBS is an internationally diversified organization headquartered in Zurich and Basel, Switzerland, with operations in many areas of the financial services group of industries.

Advisory fees

Effective March 1, 2011, UBS Global AM acts as the investment advisor and administrator pursuant to a contract with the fund ("Current Advisory and Administration Contract"). Prior to March 1, 2011, UBS Financial Services Inc. acted as the investment advisor and administrator pursuant to a contract with the fund ("Previous Advisory and Administration Contract"), and UBS Global AM acted as the sub-advisor and sub-administrator pursuant to a contract with UBS Financial Services Inc. ("Sub-Advisory and Sub-Administration Contract").

For the most recent fiscal year ended June 30, 2011, (a) UBS Financial Services Inc., the fund's prior investment advisor and administrator for the period July 1, 2010, through February 28, 2011, and (b) UBS Global AM, the fund's current investment advisor and administrator for the period March 1, 2011, until June 30, 2011, were entitled to advisory and administration fees from the fund at annual rates of 0.41% and 0.38%, respectively, of the fund's average daily net assets. (The

contractual advisory fee rate has been reduced under the Current Advisory and Administration Contract from the level provided in the Previous Advisory and Administration Contract; the effective fee rate may fluctuate based upon fee breakpoints triggered at different fund asset levels. Concurrent with the reduction in the contractual fee rate, the amount paid under the shareholder services plan increased to the upper limit allowable under the services plan; however, the net effect of these fee modifications was a decrease in the aggregate contractual management and services fees payable by the fund.)

After taking into account voluntary and contractual fee waivers for the most recent fiscal year ended June 30, 2011, (a) UBS Financial Services Inc., the fund's prior investment advisor and administrator for the period July 1, 2010, through February 28, 2011, and (b) UBS Global AM, the fund's current investment advisor and administrator for the period March 1, 2011, until June 30, 2011, received advisory and administration fees at the effective annual rates of 0.01% and 0.11%, respectively. (The amount for UBS Global AM does not reflect additional voluntary fee waivers/expense reimbursements by UBS Global AM and/or its affiliates, which effectively combined to ensure that the fund's yield levels remained positive over the relevant period.)

UBS Global AM may voluntarily waive fees and/or reimburse fund expenses from time to time. For example, UBS Global AM may voluntarily undertake to waive fees and/or reimburse expenses in the event that fund yields drop below a certain level. Once started, there is no guarantee that UBS Global AM would continue to voluntarily waive its fees and/or reimburse expenses. Waivers/reimbursements may impact the fund's performance.

A discussion regarding the basis for the board's approval of the (1) Previous Advisory and Administration Contract and (2) Sub-Advisory and Sub-Administration Contract appears in the fund's semiannual report to shareholders for the fiscal period ended December 31, 2010. A discussion regarding the basis for the board's approval of the Current Advisory and Administration Contract is available in the fund's annual report to shareholders for the fiscal period ended June 30, 2011.

Other information

To the extent authorized by law, the fund reserves the right to discontinue offering shares at any time, merge, reorganize itself or cease operations and liquidate.

Dividends and taxes

Dividends

The fund declares dividends daily and pays them monthly. The fund may distribute all or a portion of its capital gains (if any) to the extent required to ensure that the fund maintains its federal tax law status as a regulated investment company. The fund will also distribute all or a portion of its capital gains to the extent necessary to maintain its share price at \$1.00.

You will receive dividends in additional shares of the fund. Shares earn dividends on the day they are purchased but not on the day they are sold.

While the fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's fund account. As a result, investors whose fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

The fund notifies its shareholders following the end of each calendar year of the amount of all dividends paid that year.

Taxes

Retirement plan participants ordinarily do not pay taxes on dividends they receive on fund shares until they withdraw the proceeds from the plan.

Generally, withdrawals from a retirement plan will be taxable as ordinary income. Withdrawals will be subject to an additional tax equal to 10% of the amount distributed unless the withdrawals are used to pay certain higher education expenses, certain acquisition costs of first-time home buyers, or in certain situations, are made after the participant:

- reaches age 59½;
- becomes permanently disabled; or

- for certain employer-sponsored plans, reaches at least age 55 and separates from service of the employer who sponsored the plan.

You should consult your tax advisor concerning the timing and tax consequences of withdrawals from your retirement plan.

The failure of a retirement plan to make sufficient distributions to a participant after the participant reaches age 70½ may be subject to an excise tax. Moreover, certain contributions to a retirement plan in excess of the amounts permitted by law may be subject to an excise tax.

If you hold fund shares other than through a retirement account or plan, the dividends that you receive from the fund generally are subject to federal income tax regardless of whether you receive them in additional fund shares or in cash. For these shareholders, the fund expects that its dividends will be taxed as ordinary income.

Although dividends are generally treated as taxable to you in the year they are paid, dividends declared in October, November or December but paid in January are taxable as if they were paid in December.

The fund may be required to withhold a 28% (currently scheduled to increase to 31% after 2012) federal tax on all dividends payable to you

- if you fail to provide the fund or UBS Financial Services Inc. with your correct taxpayer identification number on Form W-9 (for US citizens and resident aliens) or to make required certifications, or
- if you have been notified by the IRS that you are subject to backup withholding.

Taxable distributions to non-residents are expected to be subject to a 30% withholding tax (or lower applicable treaty rate).

The above is a general and abbreviated discussion of certain tax considerations, and each investor is advised to consult with his or her own tax advisor. There is additional information on taxes in the fund's SAI.

Disclosure of portfolio holdings

The fund will file its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The fund's complete schedule of portfolio holdings for the second and fourth quarters of each fiscal year is included in its semiannual and annual reports to shareholders and is filed with the SEC on Form N-CSR. The fund's Forms N-Q and Forms N-CSR are available on the SEC's Web site at <http://www.sec.gov>. The fund's Forms N-Q and Forms N-CSR may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-202-551 8090. Additionally, you may obtain copies of Forms N-Q and annual and semiannual reports to shareholders from the fund upon request by calling 1-800-647 1568. The semiannual and annual reports for the fund will be posted on the fund's Web site at <http://www.ubs.com/usmoneymarketfundsholdings>.

The fund will disclose on UBS Global AM's Web site, within five business days after the end of each month: (i) a complete schedule of portfolio holdings and information regarding the weighted average maturity of the fund, and (ii) an update for the fund showing additional portfolio characteristics such as exposure to European banks and their affiliates broken down by country and related weighted average life or weighted average maturity information by such country holdings. This information will be posted on the UBS Web site at the following internet address: www.ubs.com/usmoneymarketfundsholdings. In addition, the fund will file with the SEC on Form N-MFP, within five business days after the end of each month, more detailed portfolio holdings information. The fund's Forms N-MFP will be available on the SEC's Web site, on a delayed basis; UBS Global AM's Web site will also contain a link to these filings which will become publicly available two months after filing with the SEC.

Please consult the fund's SAI for a description of the policies and procedures that govern disclosure of the fund's portfolio holdings.

Financial highlights

The following financial highlights table is intended to help you understand the fund's financial performance for the past five years. Certain information reflects financial results for a single fund share. In the table, "total investment return" represents the rate that an investor would have earned on an investment in the fund (assuming reinvestment of all dividends and distributions).

The information in the financial highlights has been derived from the financial statements audited by Ernst & Young LLP, an independent registered public accounting firm, whose report, along with the fund's financial statements, is included in the fund's annual report to shareholders. The annual report may be obtained without charge by calling 1-800-647 1568.

	Years ended June 30,				
	2011 ¹	2010	2009	2008	2007
Net asset value, beginning of year	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00
Net investment income	0.000 ²	0.000 ²	0.009	0.035	0.046
Dividends from net investment income	(0.000) ²	(0.000) ²	(0.009)	(0.035)	(0.046)
Distributions from net realized gains	(0.000) ²	(0.000) ²	(0.000) ²	—	(0.000) ²
Total dividends and distributions	(0.000) ²	(0.000) ²	(0.009)	(0.035)	(0.046)
Net asset value, end of year	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00
Total investment return³	0.01%	0.01%	0.96%	3.60%	4.68%
Ratios to average net assets:					
Expenses before fee waivers and/or expense reimbursements by investment advisor/administrator	0.72%	0.74%	0.75%	0.77%	0.83%
Expenses after fee waivers and/or expense reimbursements by investment advisor/administrator	0.26%	0.27%	0.66%	0.66% ⁴	0.77%
Net investment income	0.01%	0.01%	0.90%	3.47%	4.57%
Supplemental data:					
Net assets, end of year (in millions)	\$ 1,418	\$ 1,551	\$ 1,984	\$ 1,794	\$ 1,548

¹ The investment advisory and administration functions for the fund were transferred from UBS Financial Services Inc. to UBS Global Asset Management (Americas) Inc. ("UBS Global AM") on March 1, 2011. As a result, the fund no longer has a sub-advisor/sub-administrator but is managed directly by UBS Global AM.

² Amount represents less than \$0.0005 per share.

³ Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. Returns do not reflect the deduction of taxes that a shareholder could pay on Fund distributions.

⁴ In addition to the waiver of advisory and administration fees by UBS Financial Services Inc., the fund was reimbursed in the amount of \$867,557, or 0.05% of average daily net assets, for overcharges related to prior fiscal periods for postage related expenses.

UBS family of funds privacy notice

This notice describes the privacy policy of the UBS Family of Funds, the PACE® Funds and all closed-end funds managed by UBS Global Asset Management (collectively, the "Funds"). The Funds are committed to protecting the personal information that they collect about individuals who are prospective, current or former investors.

The Funds collect personal information in order to process requests and transactions and to provide customer service. Personal information, which is obtained from applications and other forms or correspondence submitted to the Funds, may include name(s), address, e-mail address, telephone number, date of birth, social security number or other tax identification number, bank account information, information about your transactions and experiences with the Funds, and any affiliation a client has with UBS Financial Services Inc. or its affiliates ("Personal Information").

The Funds limit access to Personal Information to those individuals who need to know that information in order to process transactions and service accounts. These individuals are required to maintain and protect the confidentiality of Personal Information and to follow established procedures. The Funds maintain physical, electronic and procedural safeguards to protect Personal Information and to comply with applicable laws and regulations.

The Funds may share Personal Information with their affiliates to facilitate the servicing of accounts and for other business purposes, or as otherwise required or permitted by applicable law. The Funds may also share Personal Information with non-affiliated third parties that perform services for the Funds, such as vendors that provide data or transaction processing, computer software maintenance and development, and other administrative services. When the Funds share Personal Information with a non-affiliated third party, they will do so pursuant to a contract that includes provisions designed to ensure that the third party will uphold and maintain privacy standards when handling Personal Information. In addition to sharing information with non-affiliated third parties to facilitate the servicing of accounts and for other business purposes, the Funds may disclose Personal Information to non-affiliated third parties as otherwise required or permitted by applicable law. For example, the Funds may disclose Personal Information to credit bureaus or regulatory authorities to facilitate or comply with investigations; to protect against or prevent actual or potential fraud, unauthorized transactions, claims or other liabilities; or to respond to judicial or legal process, such as subpoena requests.

Except as described in this privacy notice, the Funds will not use Personal Information for any other purpose unless the Funds describe how such Personal Information will be used and clients are given an opportunity to decline approval of such use of Personal Information relating to them (or affirmatively approve the use of Personal Information, if required by applicable law). The Funds endeavor to keep their customer files complete and accurate. The Funds should be notified if any Personal Information needs to be corrected or updated. Please call 1-800-647 1568 with any questions or concerns regarding your Personal Information or this privacy notice.
